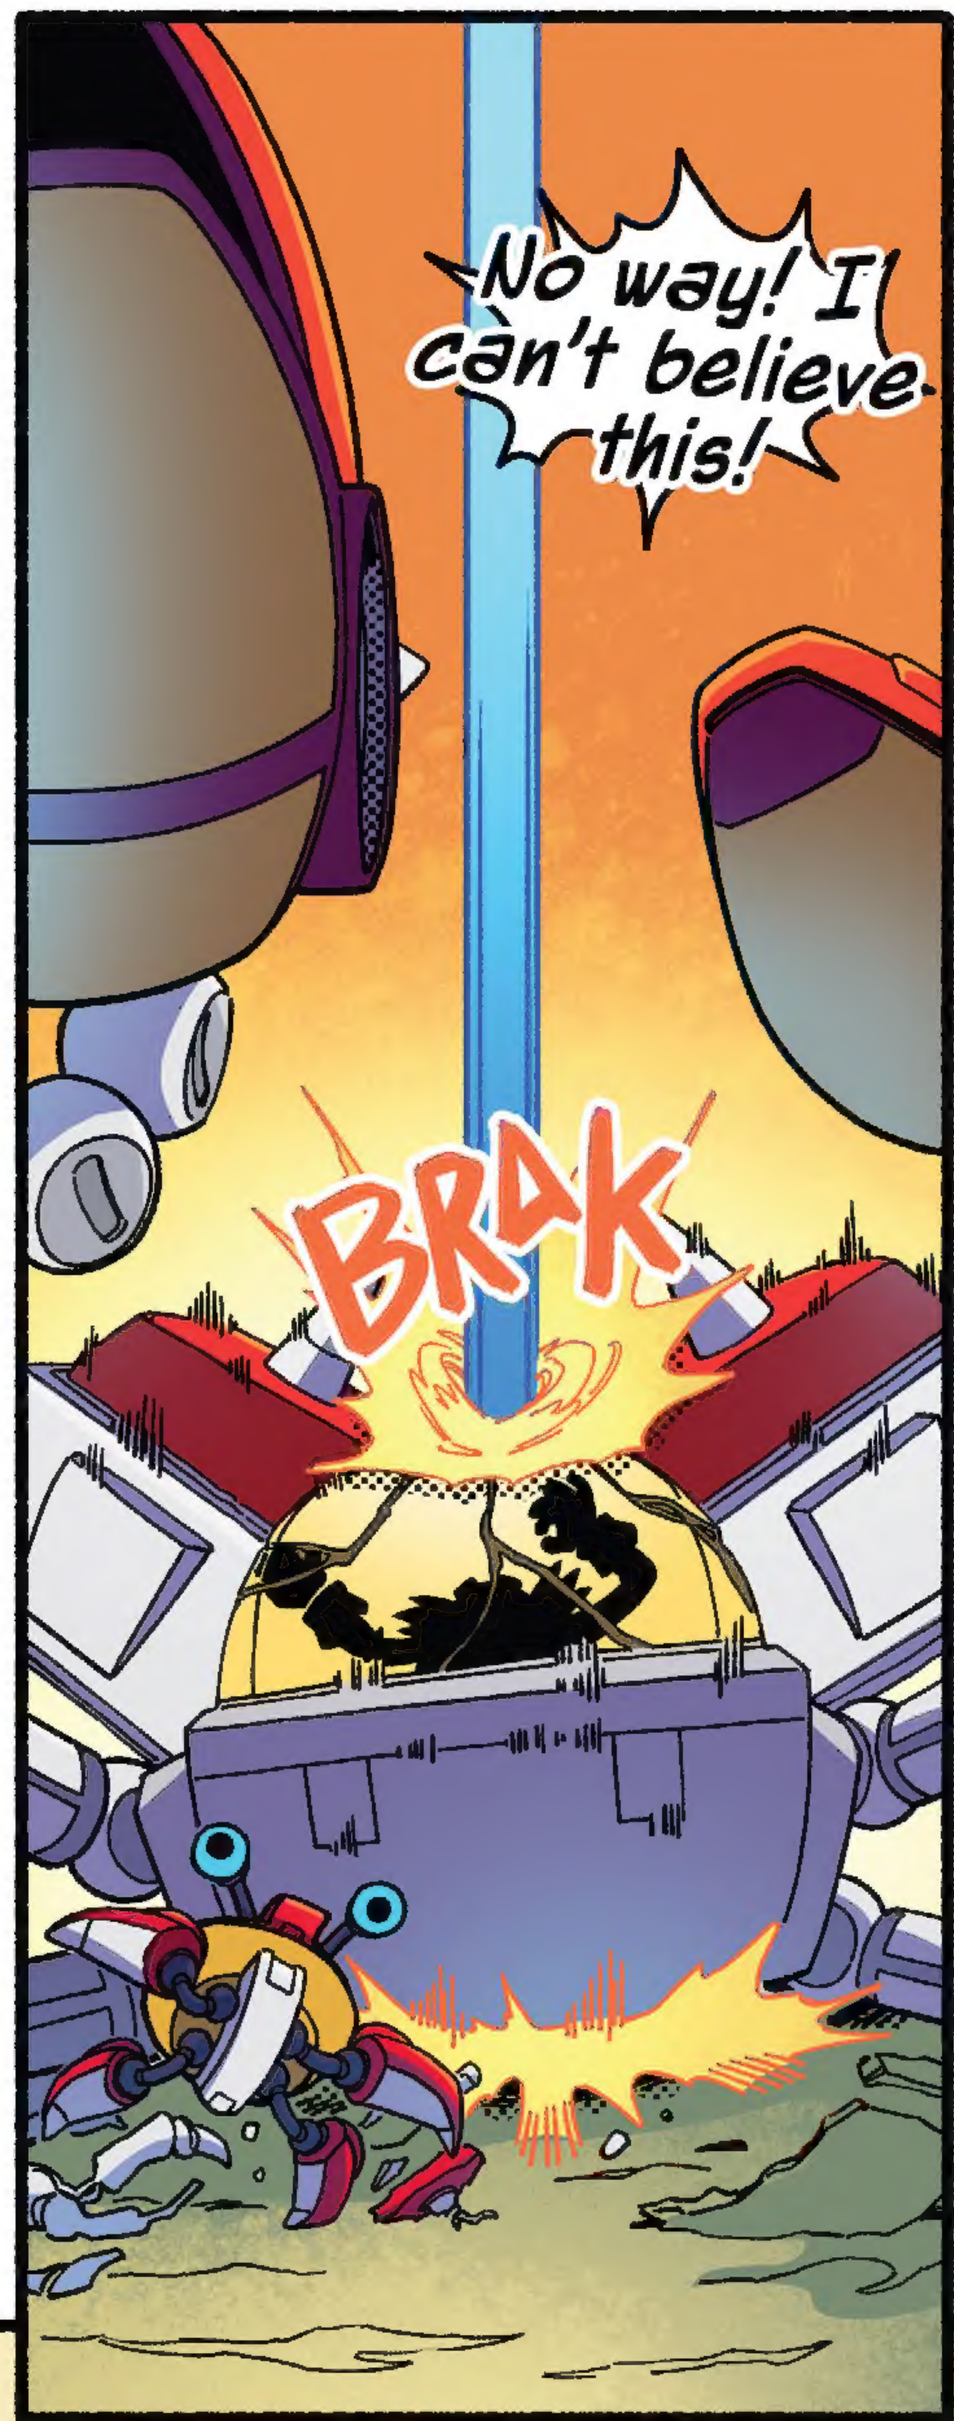
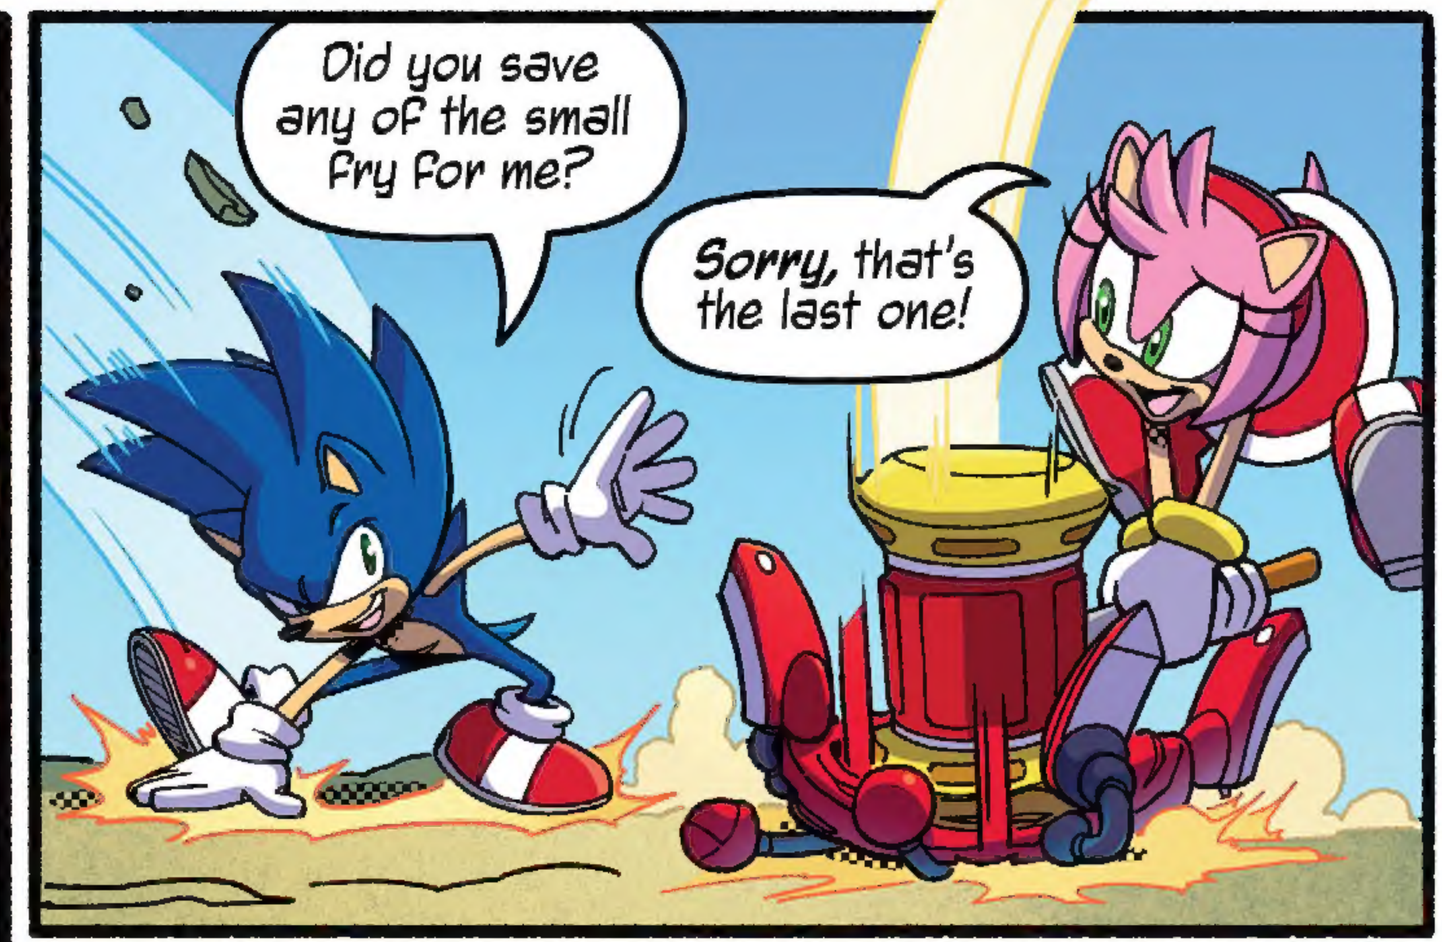
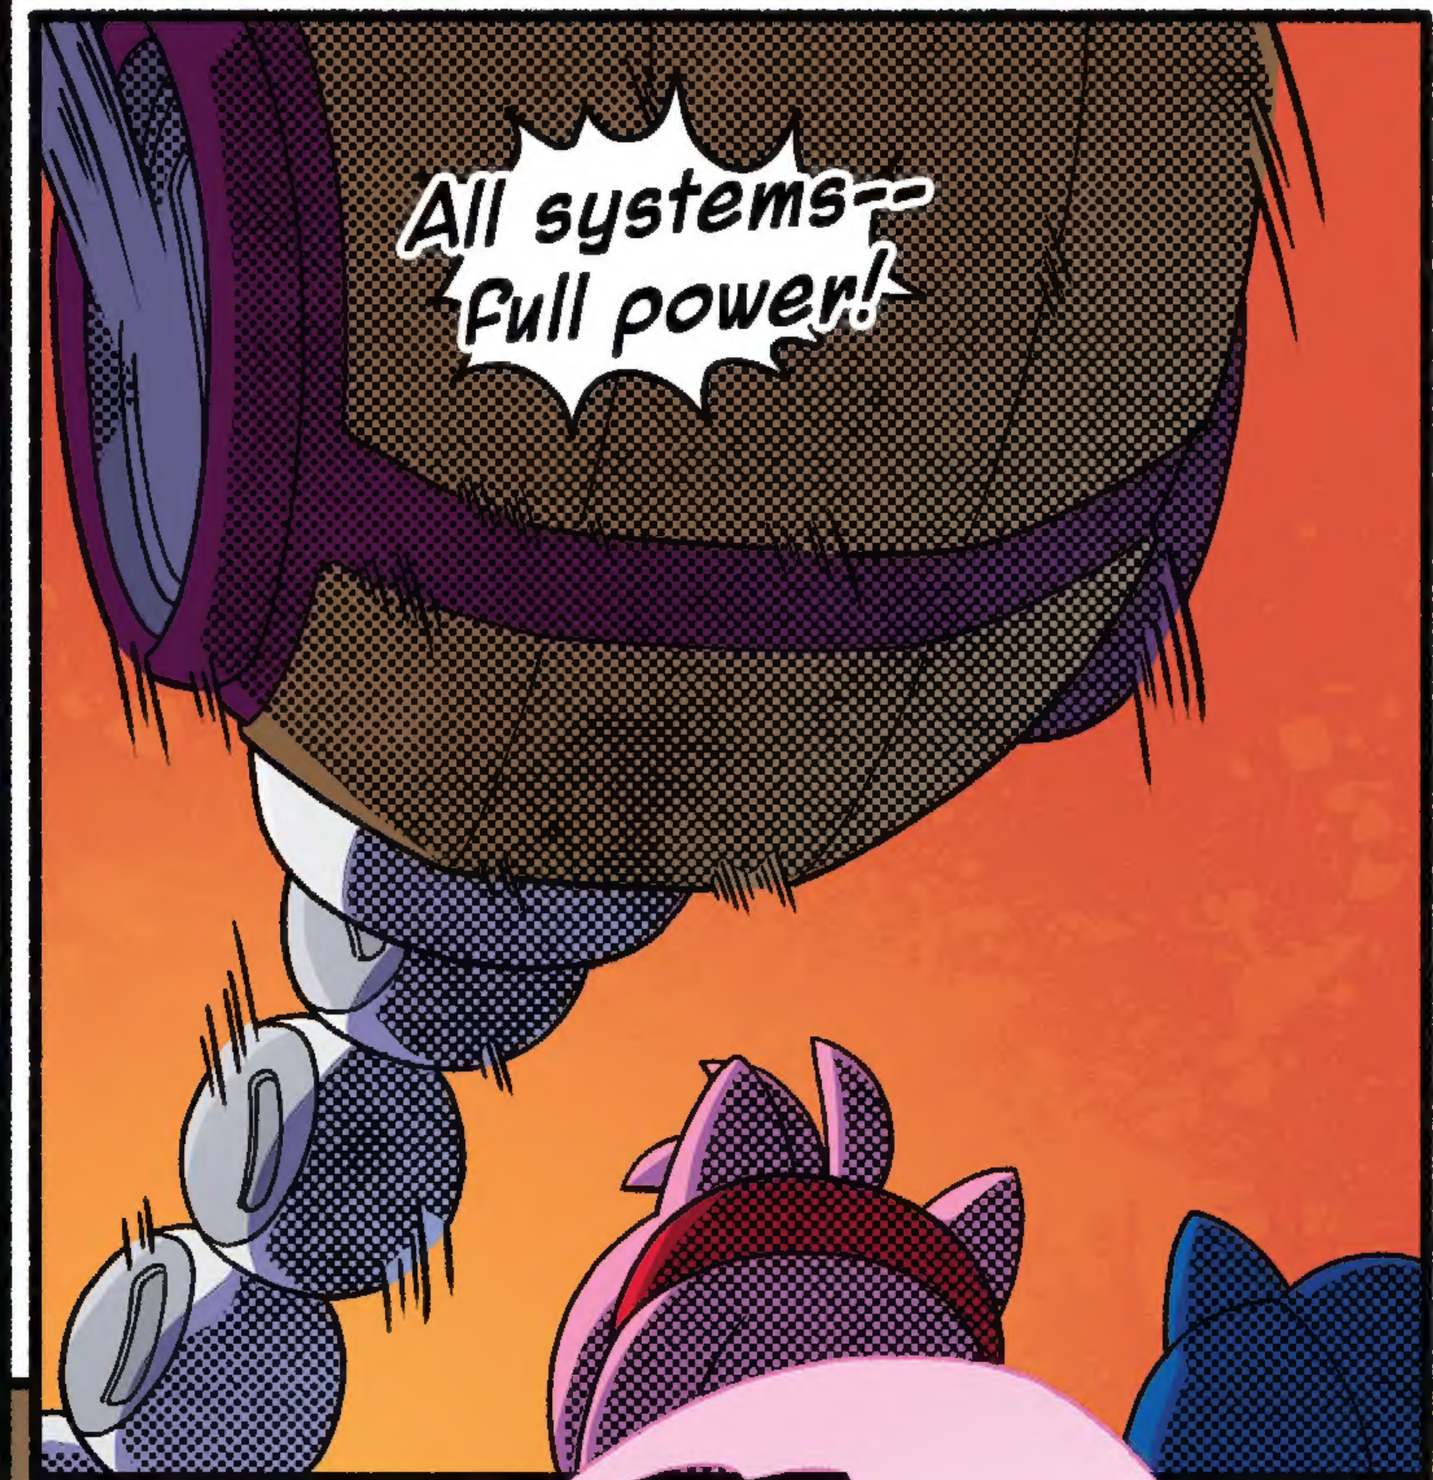
Amy said she'd meet us on the island up ahead. E.T.A. five minutes!
Better make an emergency landing, Tails...
...Cuz it looks like she could use some help!
Ha! Sonic and Tails are here!
Your chances of beating me just went from slim to none, Eggman!
Piko
Get a load of this!



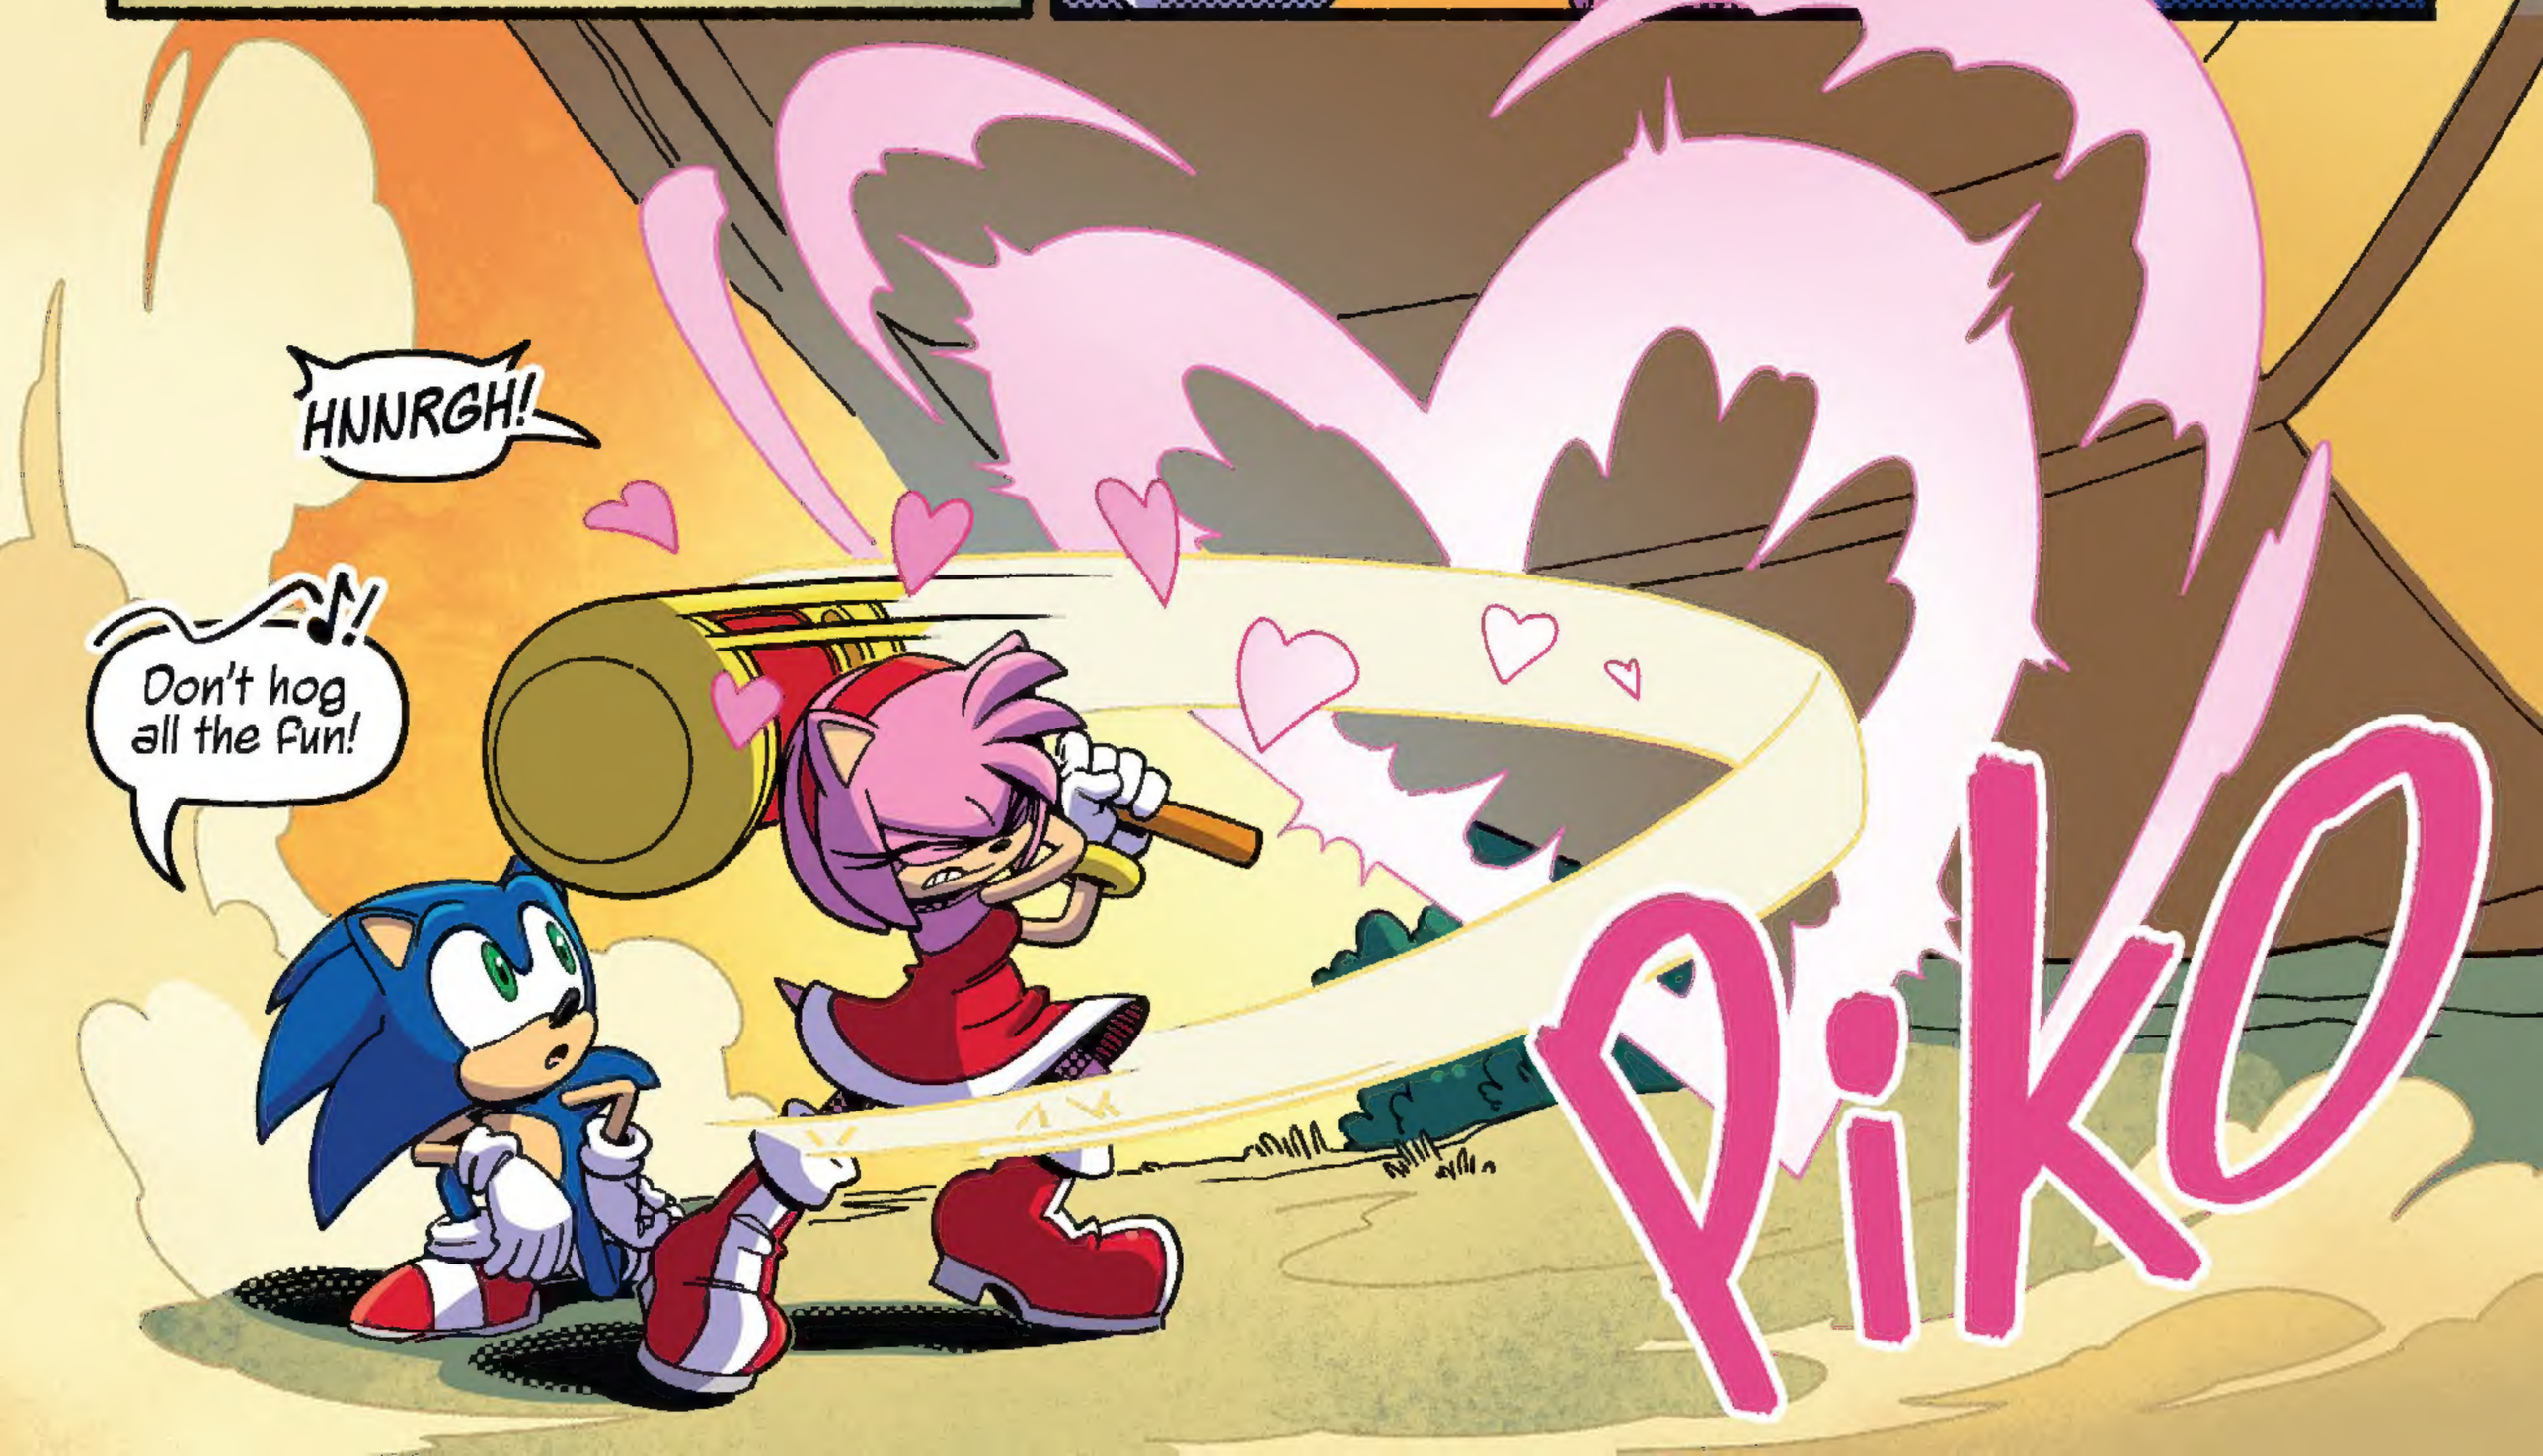
No way! I can't believe this!
BRAK



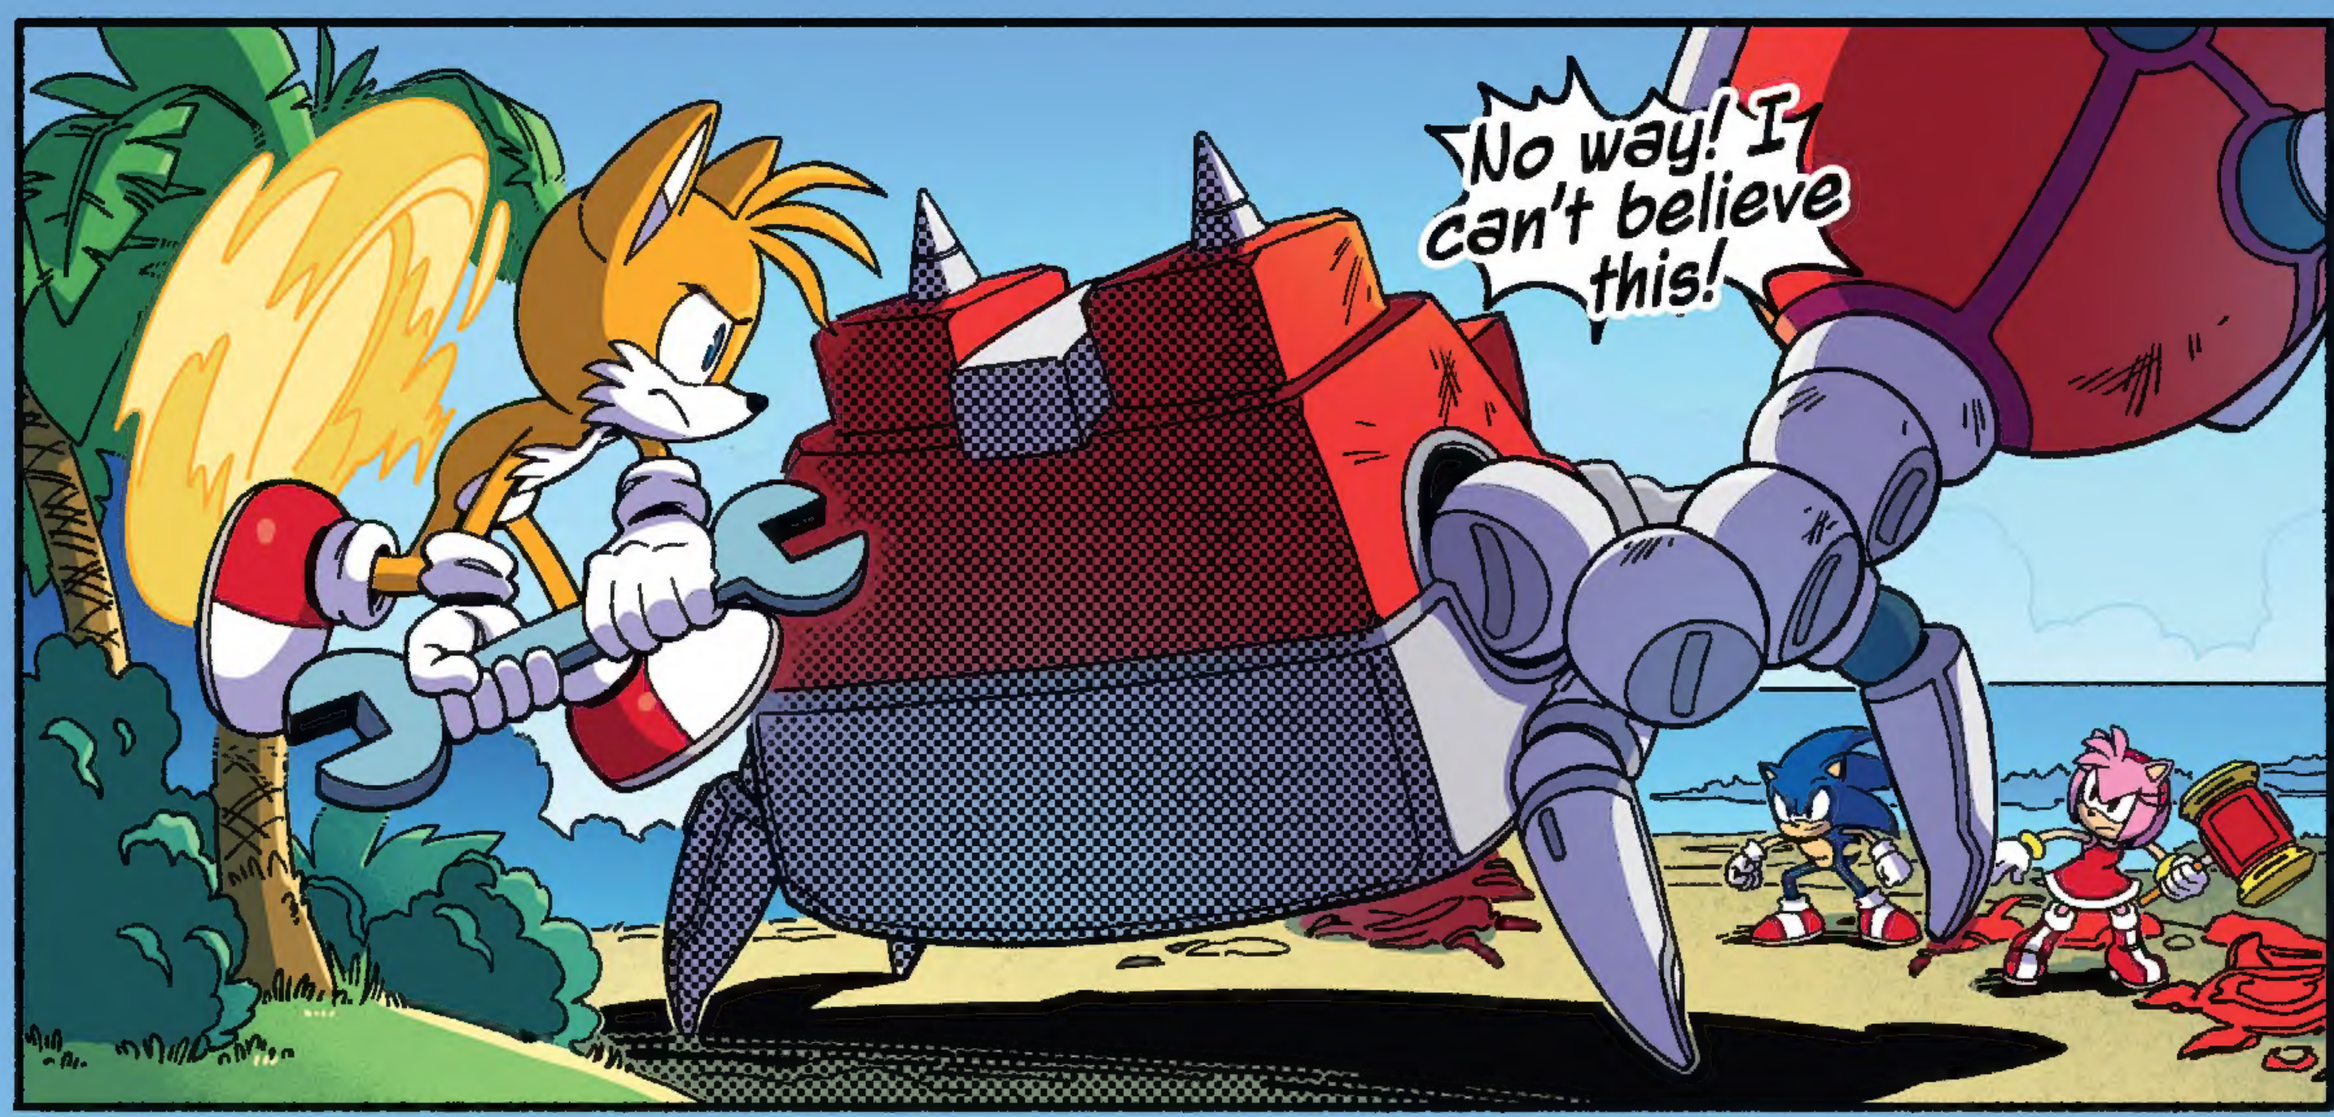
Did you save any of the small fry for me?
Sorry, that's the last one!



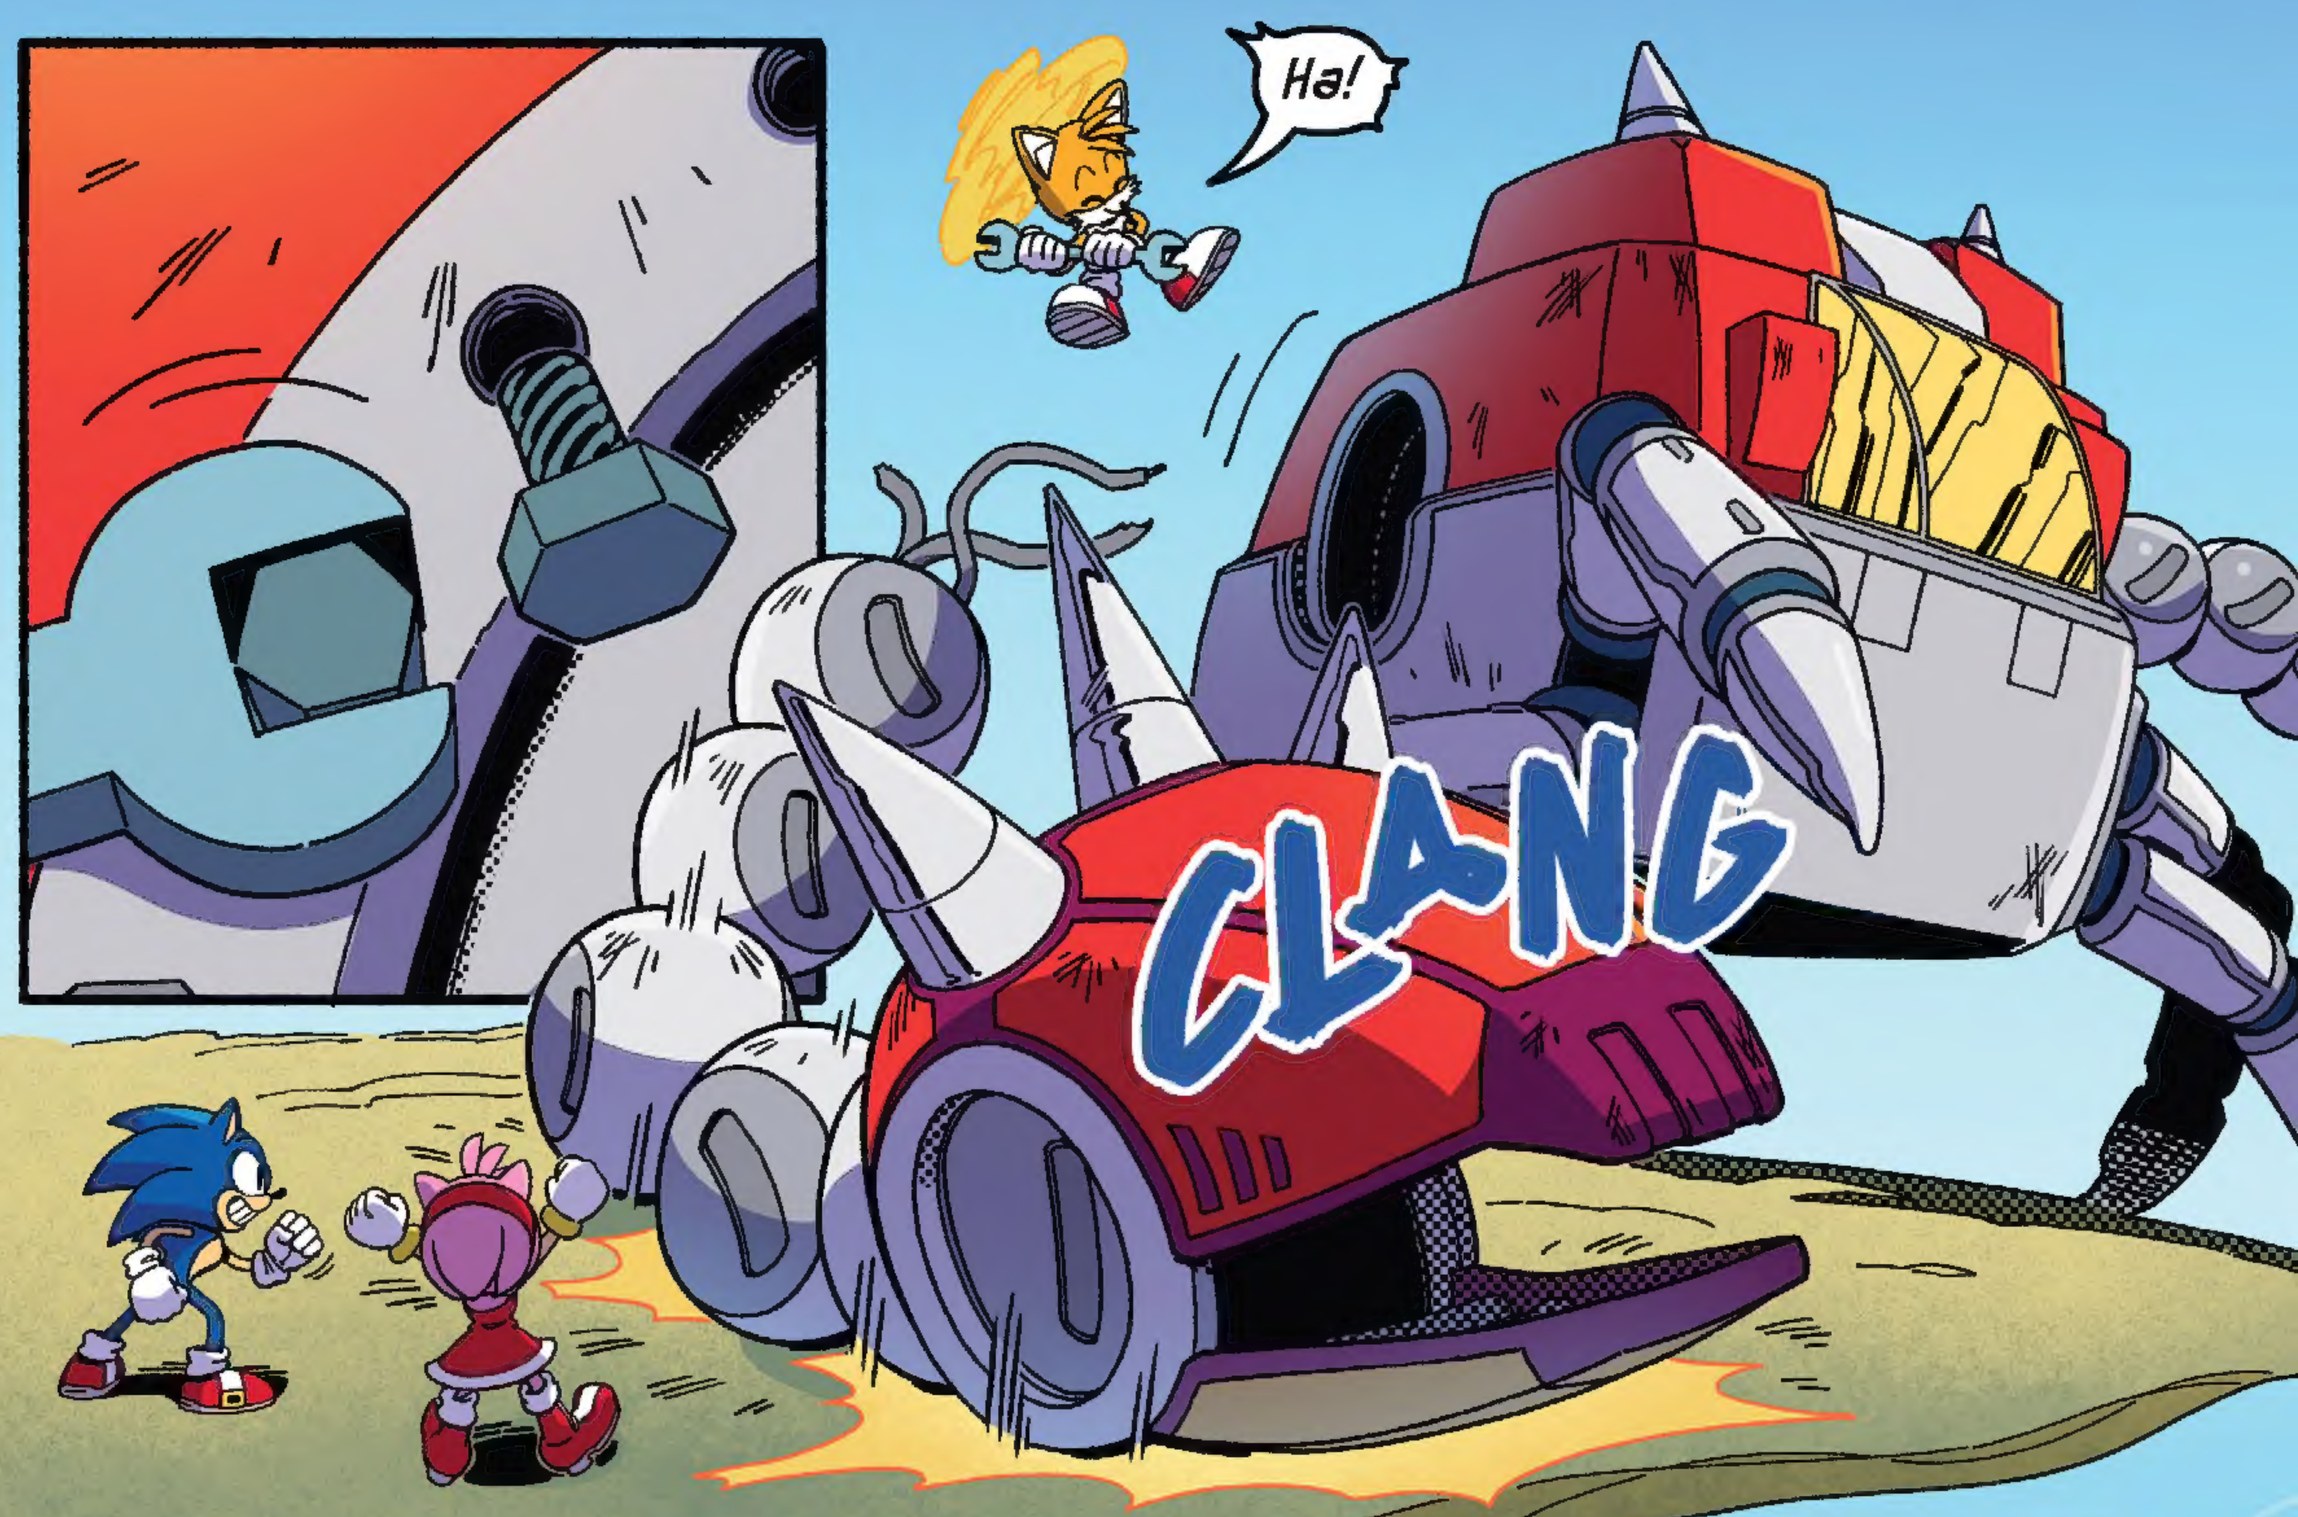
All systems-- full power!



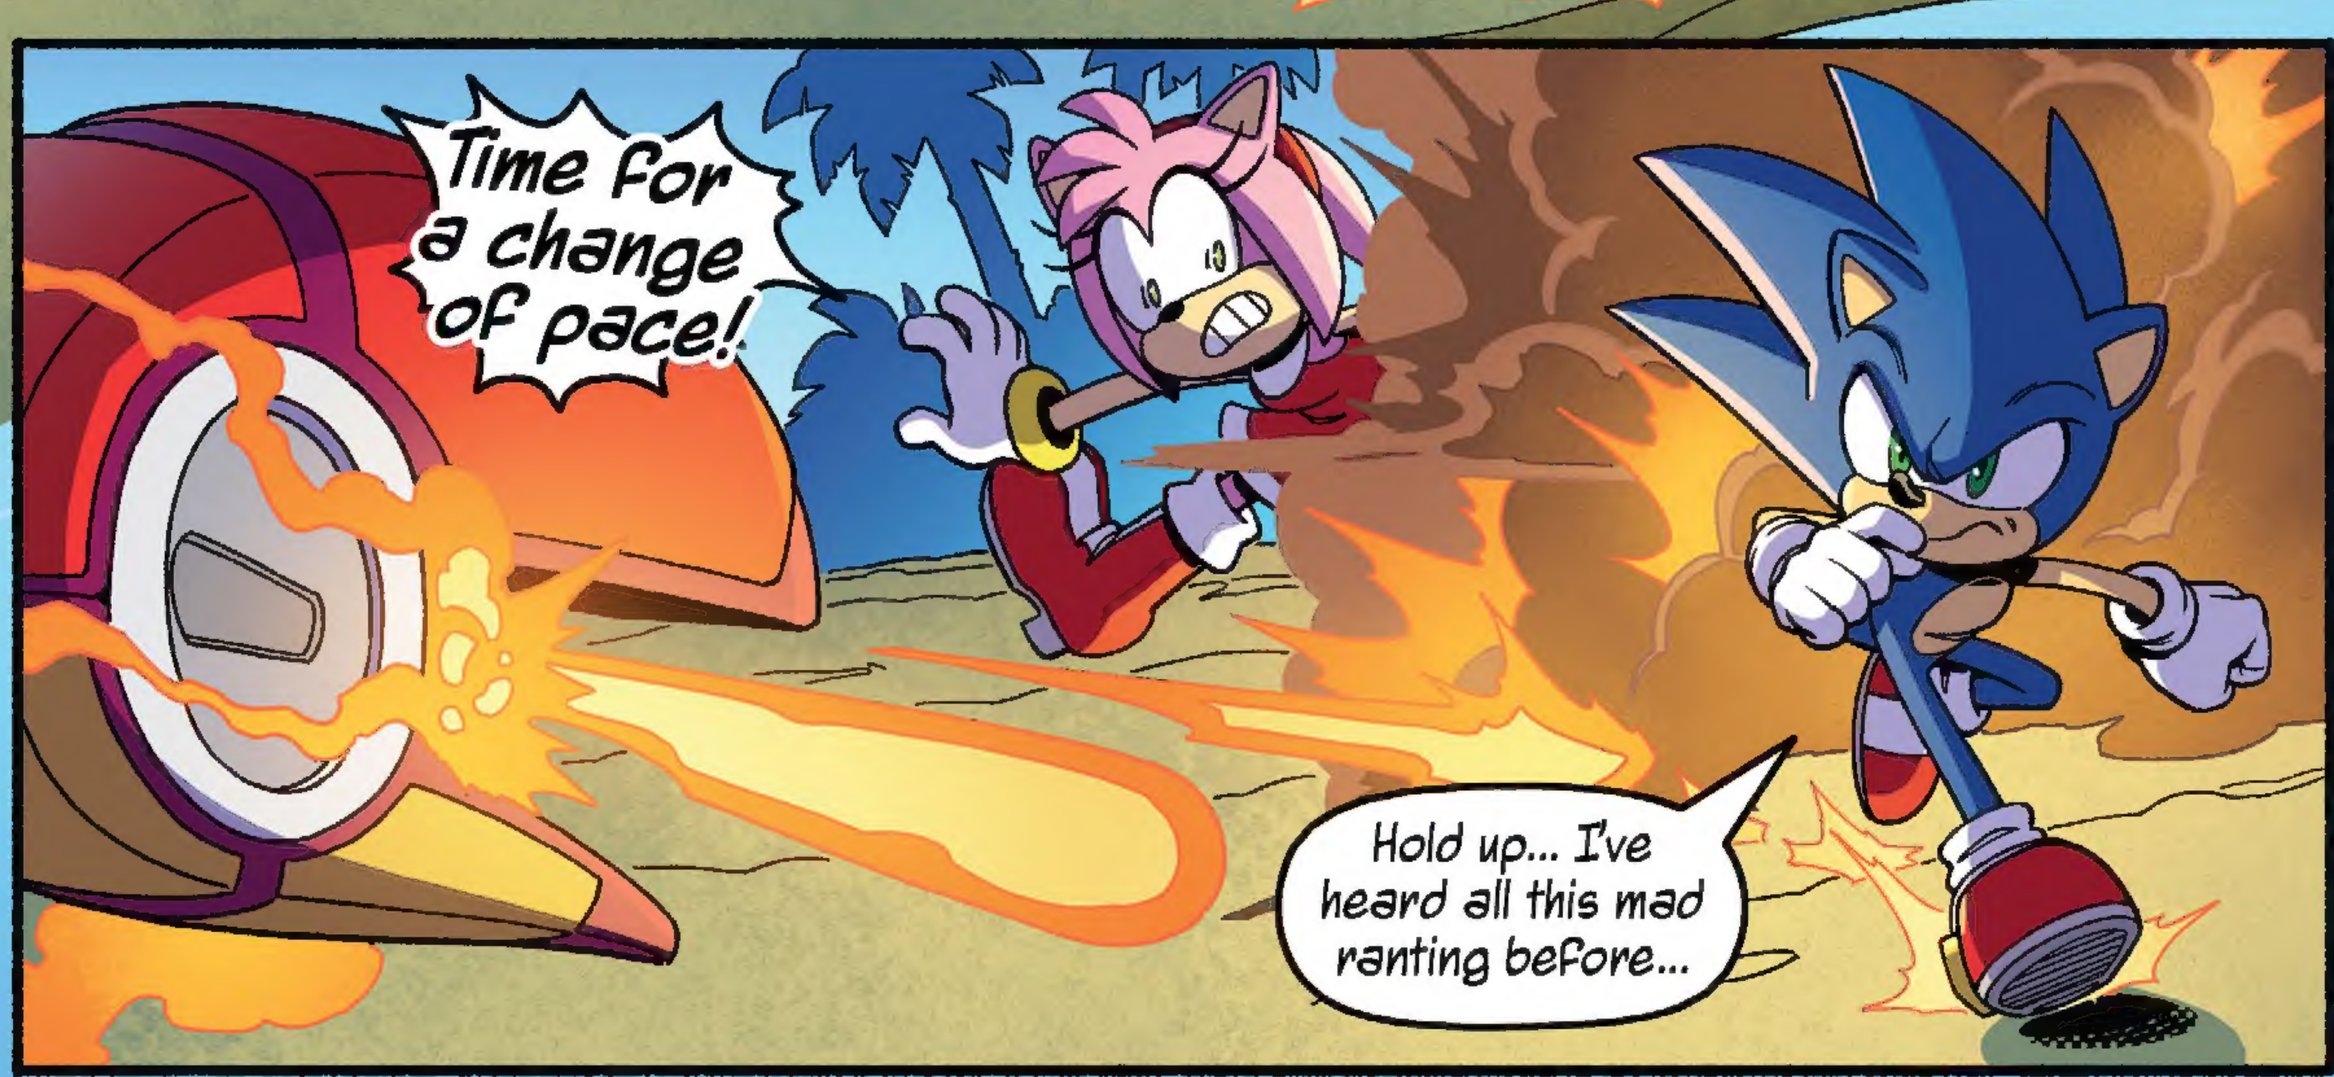
HNNRGH!
Don't hog all the fun!
Piko



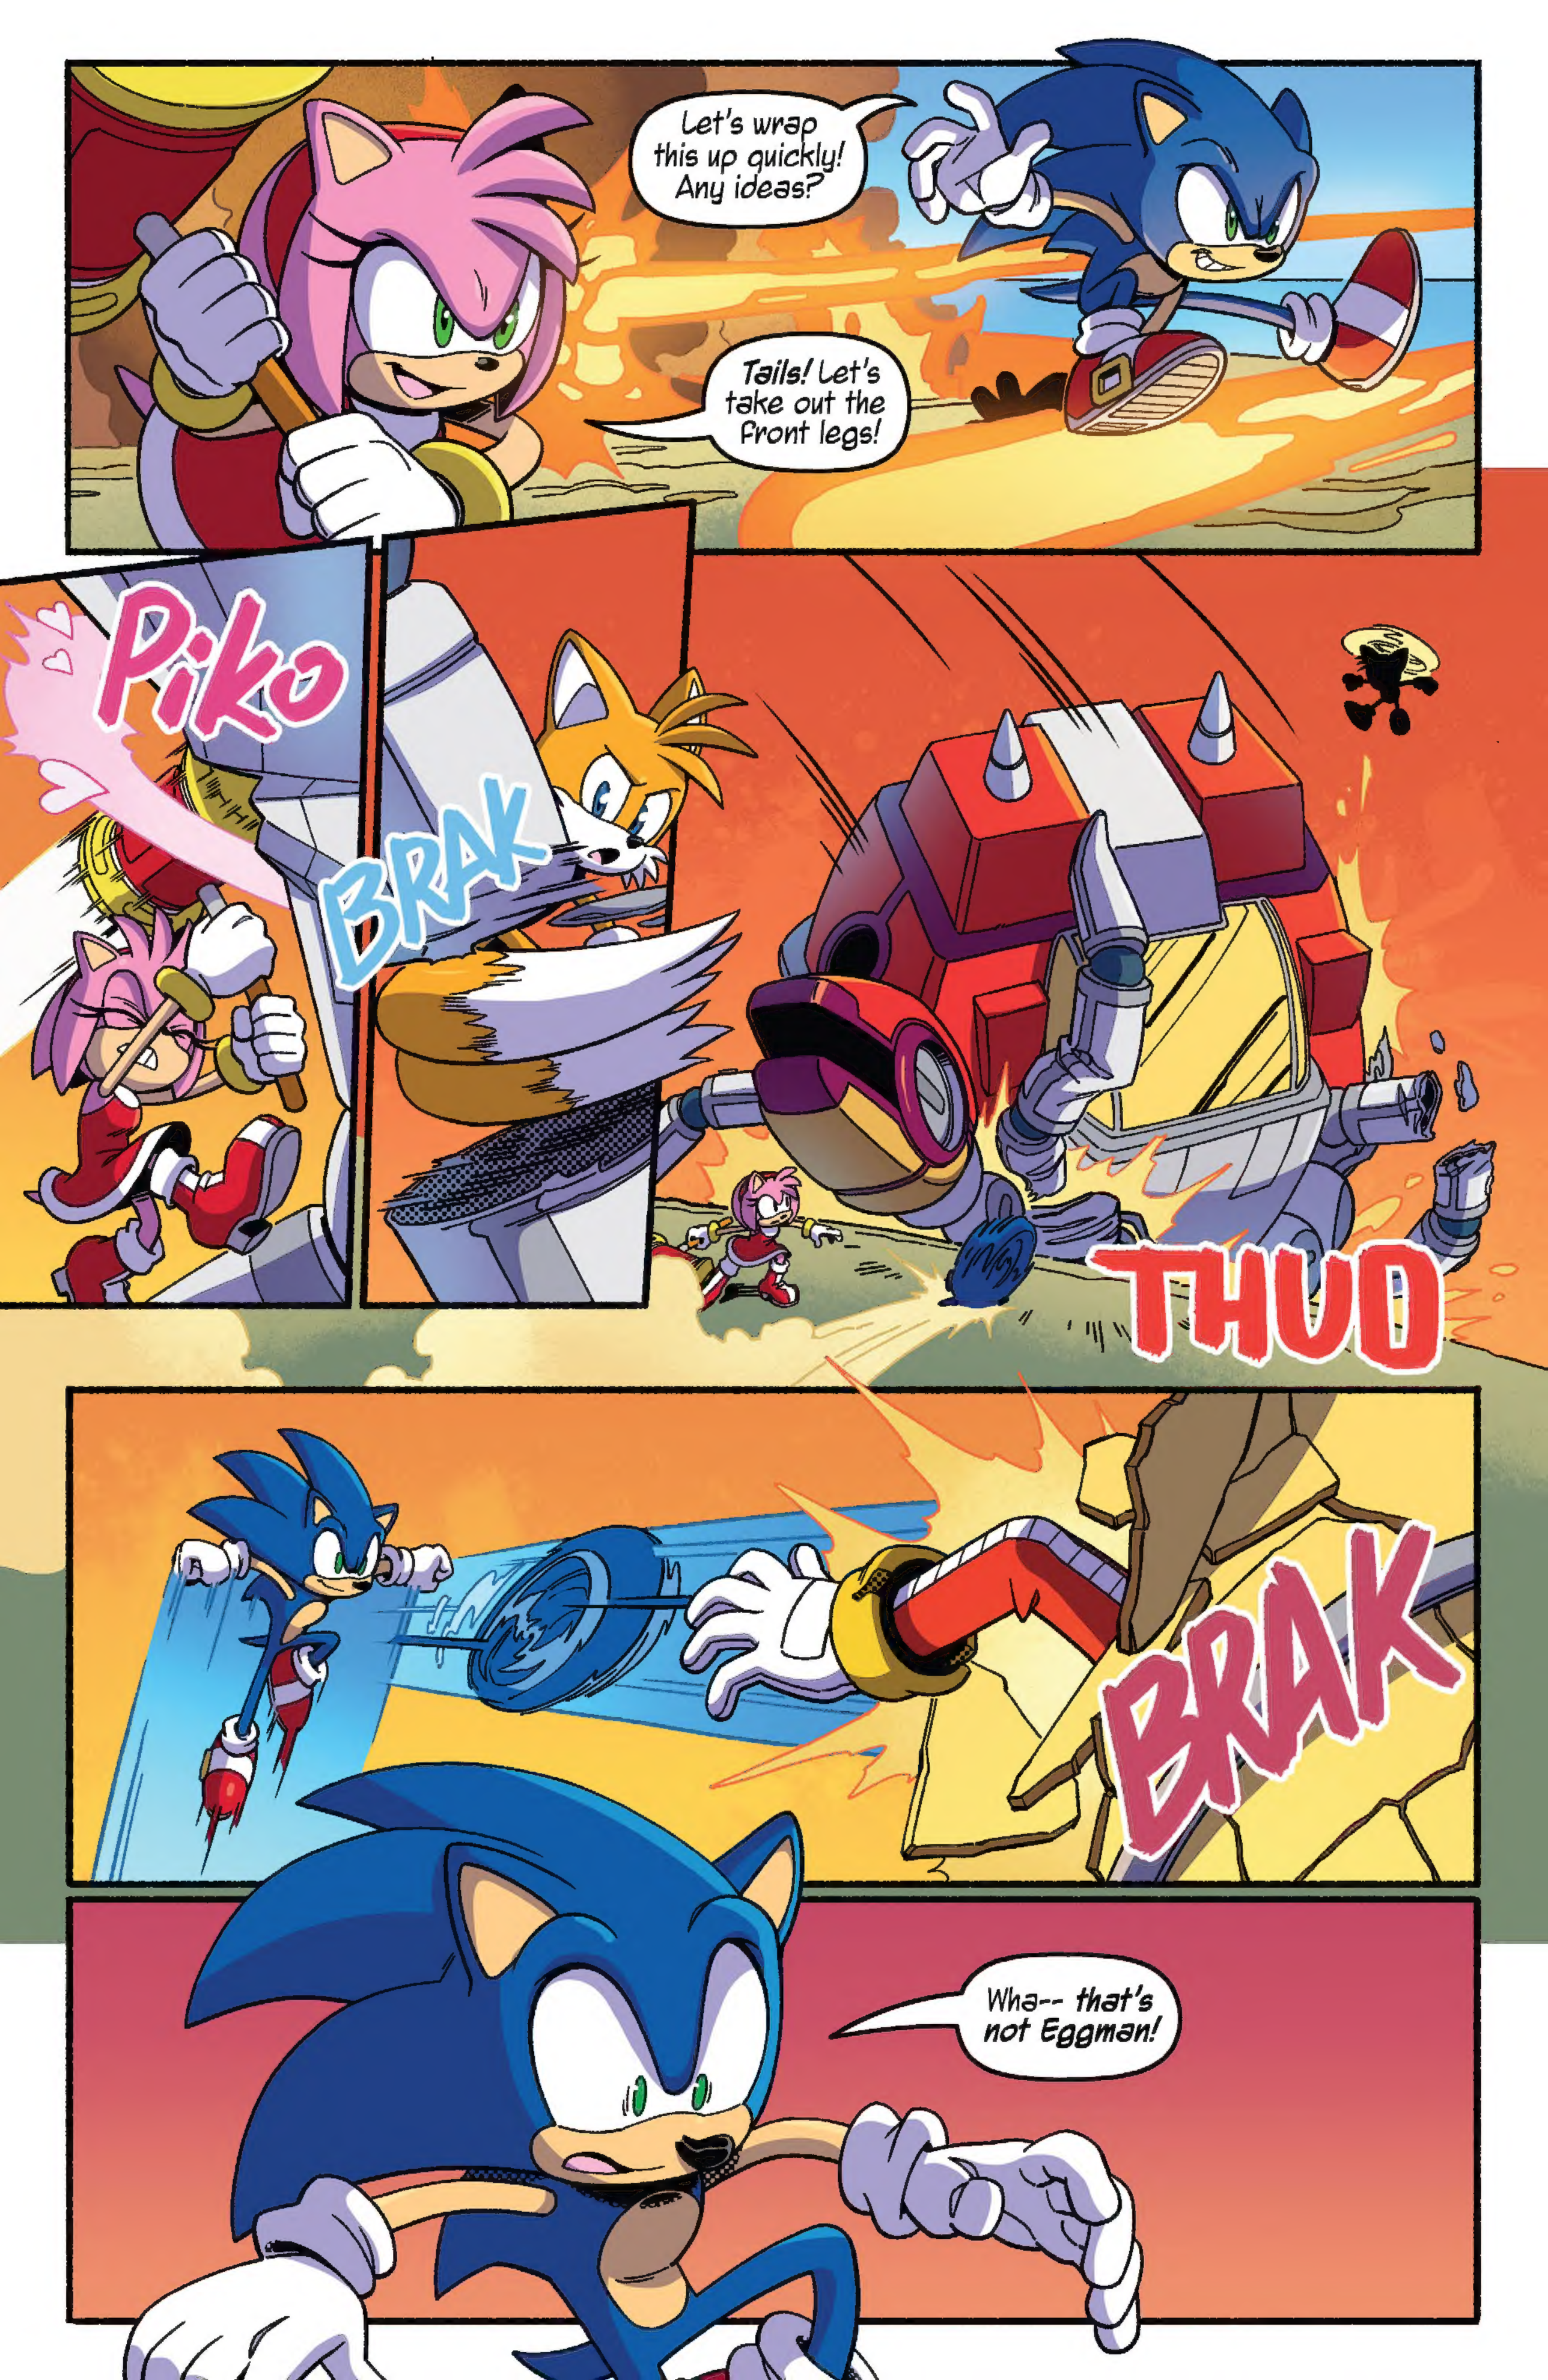
No way! I can't believe this!



Ha!
CLANG



Time for a change of pace!
Hold up... I've heard all this mad ranting before...



Let's wrap this up quickly! Any ideas?
Tails! Let's take out the front legs!
Piko

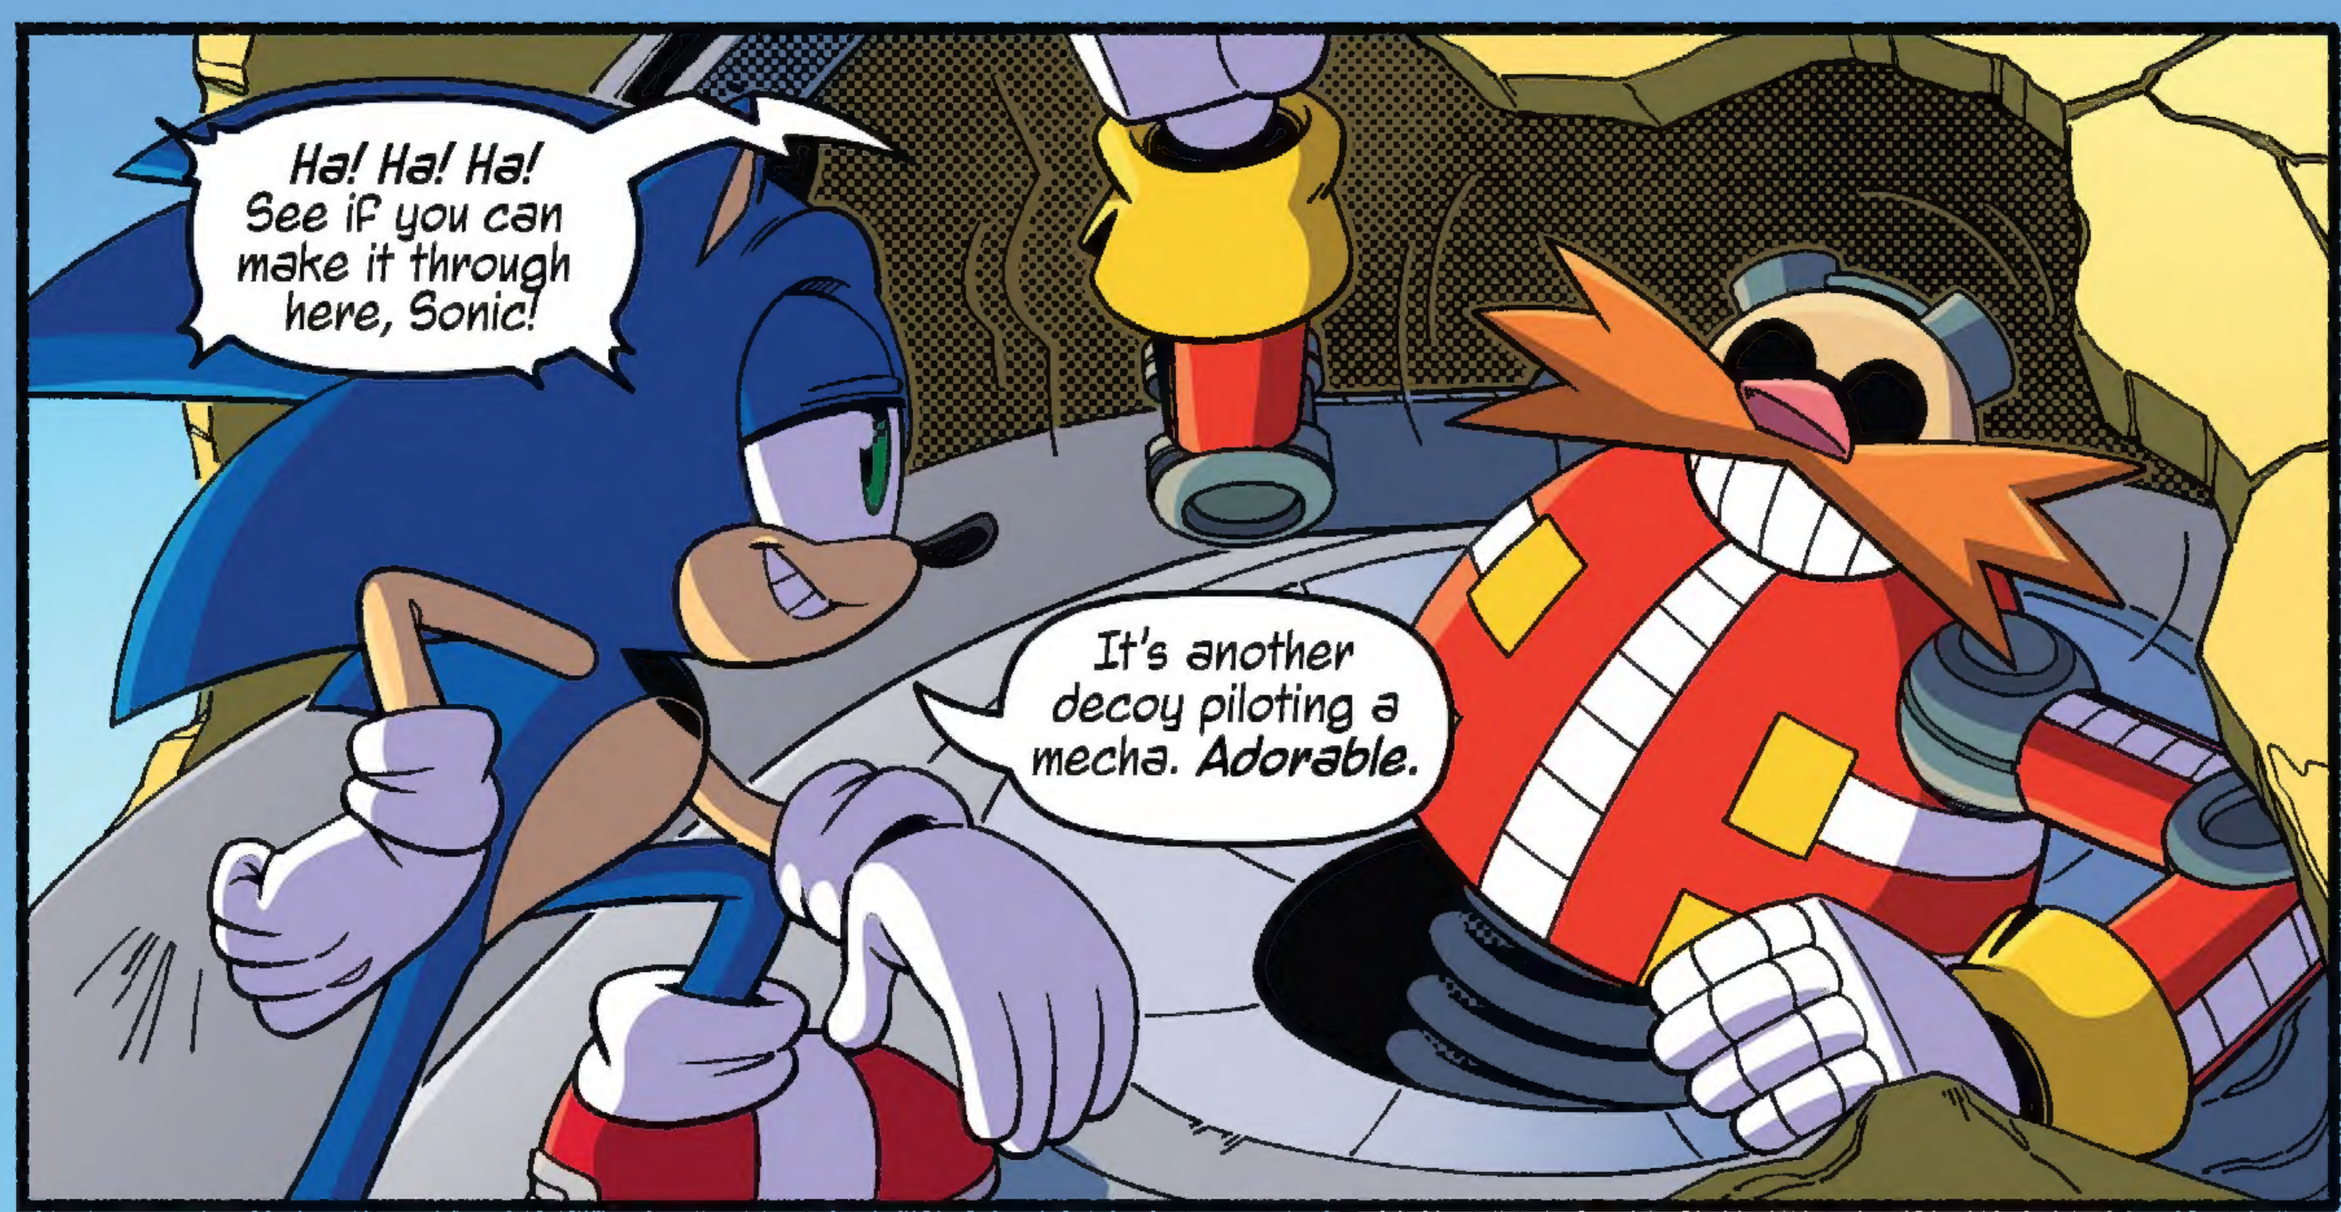
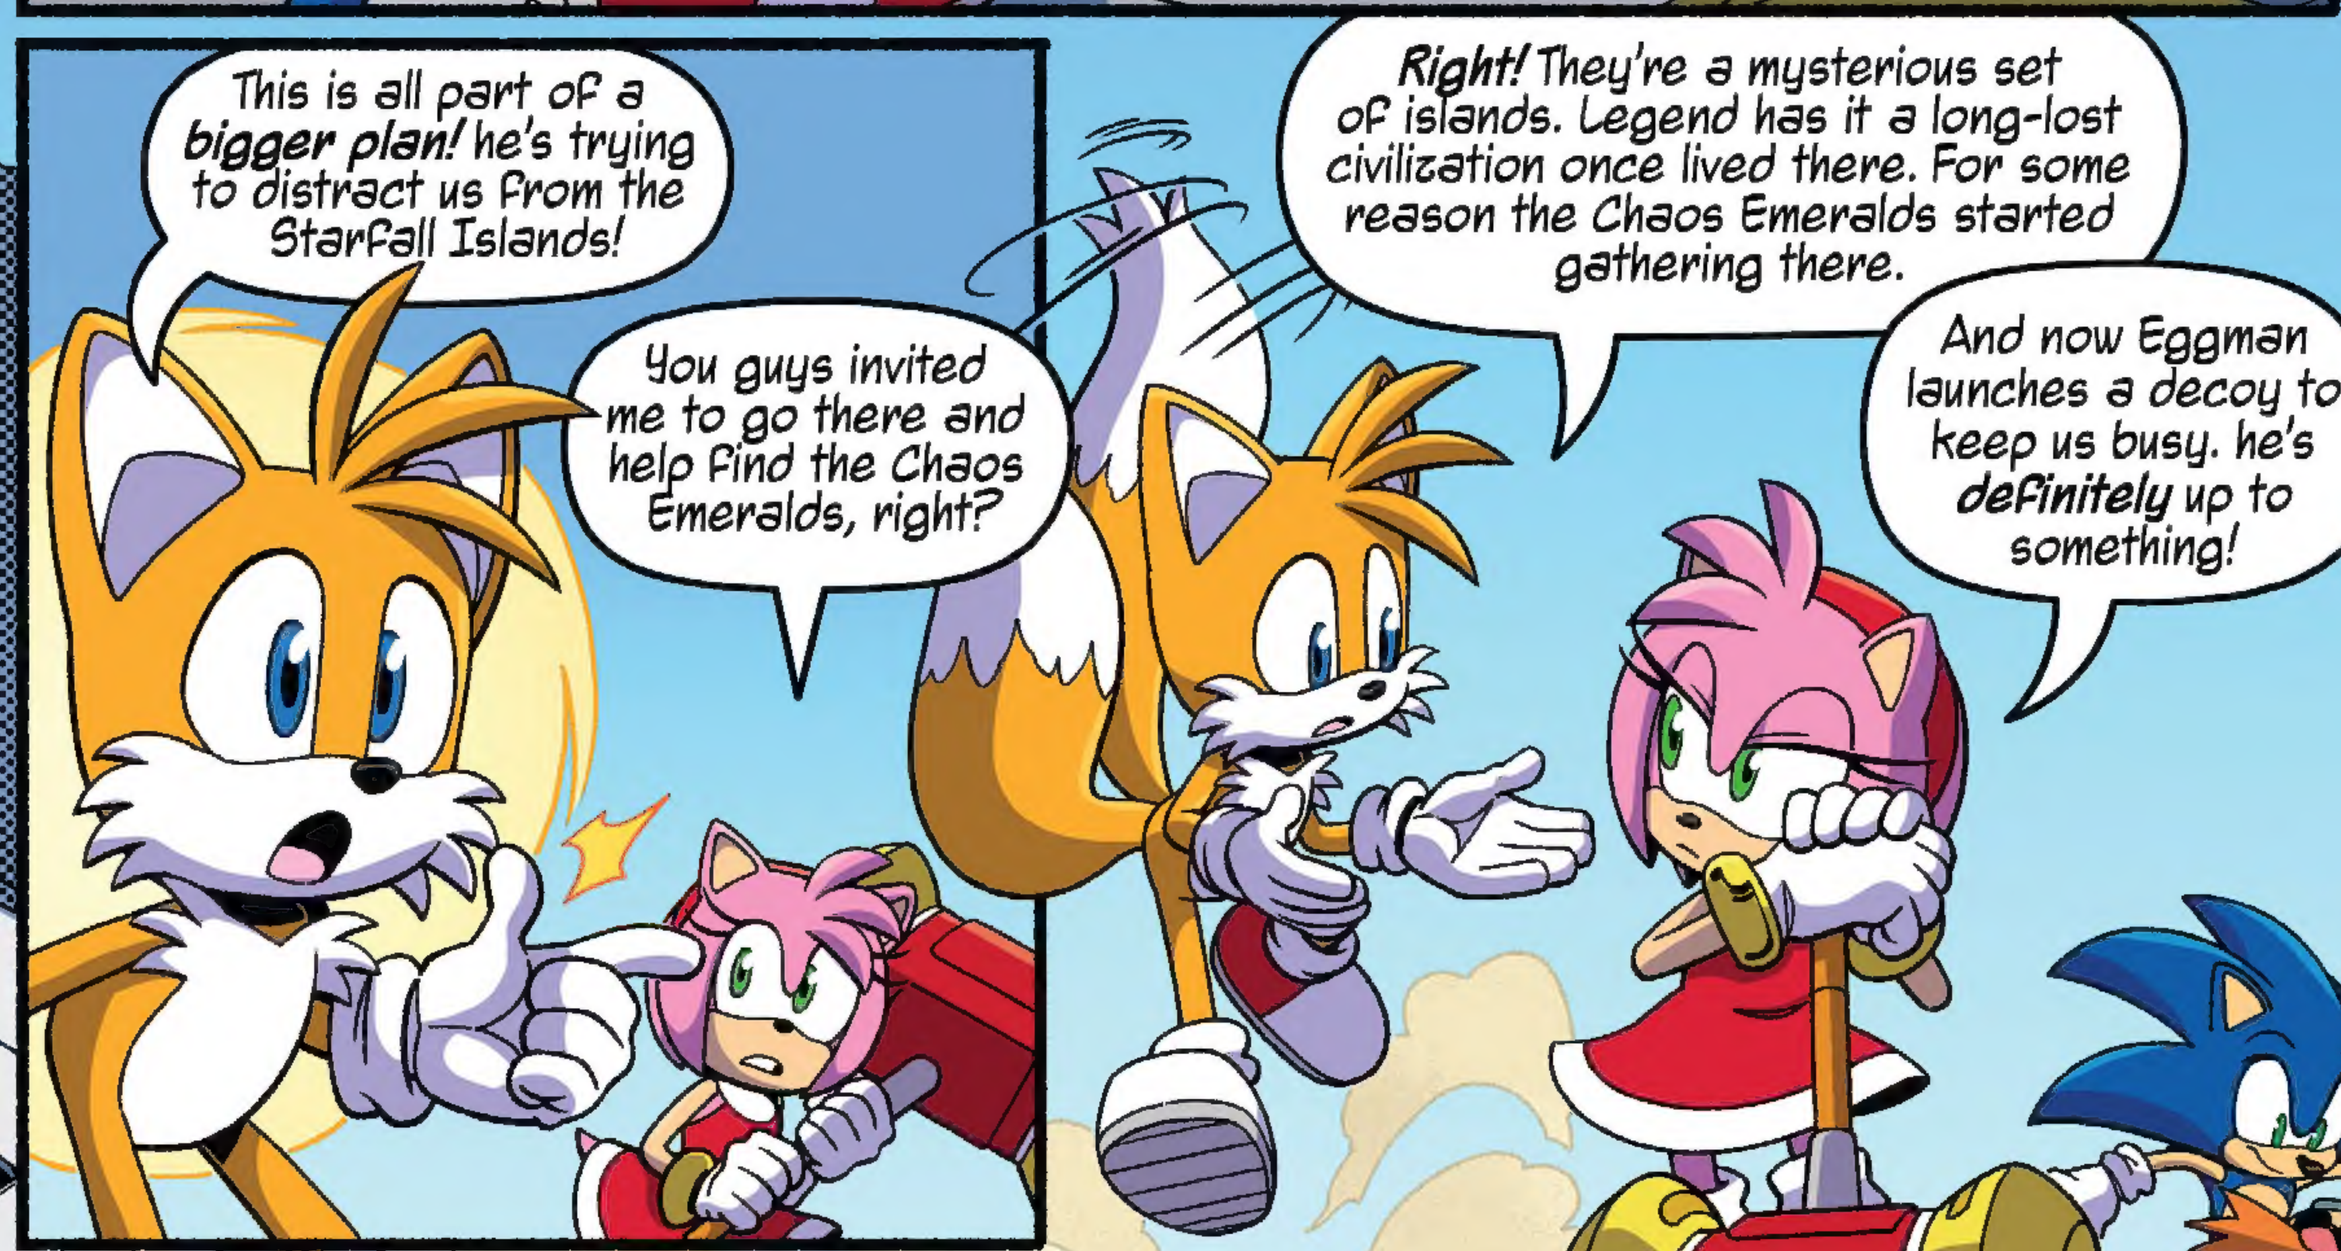
Wha-- that's not Eggman!



Ha! Ha! Ha! See if you can make it through here, Sonic!
It's another decoy piloting a mecha. Adorable.



This is all part of a bigger plan! he's trying to distract us from the Starfall Islands!
You guys invited me to go there and help find the Chaos Emeralds, right?
Right! They're a mysterious set of islands. Legend has it a long-lost civilization once lived there. For some reason the Chaos Emeralds started gathering there.
And now Eggman launches a decoy to keep us busy. he's definitely up to something!

Mystery! Action! Adventure! Sound like fun to you?
You know it does! Let's go!

Next stop-- *Kronos Island!*

Later-- Kronos Island
First of the Starfall Islands

Status report!

Assets have been deployed to all islands. Supply caches have been distributed.

Excellent! Now I can begin surveying the islands. Soon, the long-lost technology of the Ancients will belong to ***me!***

Um, hello boss. Enjoying your island excursion?
This is a business trip, not a vacation!
Of course, sir, and I hate to interrupt, but...
Just spit it out already!
Sonic and his friends just trashed Unit D3-C04.
What?!
And you're telling me now?!
There were... Er... Technical difficulties trying to reach you.

Oh really?
Analysis of data transfer shows significant delay between unit destruction and contact.
You tattle-tale!

First things first! The rodent is undoubtedly on his way here. I'll have to accelerate my plans.

Warning. A.I. integration untested. System stress test untested. Accelerated timetable is not advised.

Ah, but I developed you to protect me, and my coding is impeccable!

There's no time to waste with Sonic on the way. Hurry up and download yourself for deployment!

Download complete.

Very good!

My latest, greatest artificial intelligence will make short work of the Ancients' cyber security!

And then all of their fantastic achievements will be mine to control!

To Be Continued in *Sonic Frontiers!*
